Kaden's story:

On Saturday, May 8th, 2021, Kaden Bagley was involved in an accident while tubing on Lake Murray. He was rushed to Richland Memorial Hospital's Trauma Center and underwent emergency surgery. His right leg was very badly damaged, and his left leg was fractured. Unfortunately, Kaden had to have his right leg amputated at the knee. Thanks to the incredible work of the Jordan Thomas Foundation, Kaden is now able to function like a normal kid. For more on Kaden's journey, please go to:
